The diagram shows a horizontal container labeled "Module" at the top. Below it, there are three identical rectangular boxes arranged side-by-side. Each box contains the text "img" in the center. Below each box, there is a label "Imagebox title" followed by "Imagebox Example..." and a blue underlined link "Link to somewhere..".

The diagram shows a rectangular box on the left containing the text "img". To its right is a larger rectangular area representing a select box. The top part of this area is a light gray bar with the text "Select box open" and a small downward-pointing triangle on the right. Below this bar are three white rectangular options, each with a thin gray border. The first option contains "Option 1", the second contains "Option 2", and the third contains "Option 3".

The screenshot shows the Google Maps interface. On the left, there is a vertical map control bar with a '+' button at the top, a slider in the middle, and a '-' button at the bottom. At the top right, there are three map style buttons: 'Satellite', 'Map' (which is currently selected), and 'Terrain'. In the center of the map, the text 'G Map' is displayed. A rounded rectangular tooltip is positioned over the map, containing the text 'Tooltip example' in bold, followed by 'some more copy' and 'here...' on separate lines.
